Southern Vectis

TERMS AND CONDITIONS RELATING TO THE USE OF NEWPORT BUS STATION

Terms and conditions to be observed by ALL bus operators:

1. All operators must use the stands allocated to them by Southern Vectis in accordance with these terms and conditions. Southern Vectis reserves the right to review stand allocations at any time and, where appropriate, will notify to the operators of any changes made to these terms and conditions of use in accordance with the provisions of the Access to Bus Stations Order and these terms and conditions.

2. These terms and conditions of use shall apply to all bus operators (including Southern Vectis) on a fair and reasonable basis without unduly discriminating between one bus operator and another bus operator (including Southern Vectis). Any exclusion of an operator will be by reference to the provisions set out in these terms and conditions (including but not limited to those situations arising pursuant to paragraph 38 (payment of charges) below).

3. Buses must proceed as follows:

(a) All buses when entering the bus station must proceed with caution directly to the stand allocated to them by Southern Vectis. In the event that such stand is unavailable, the bus must proceed to the set down stand for passengers to alight.

(b) Subject to paragraph 3(c) below, buses must vacate the set down stand without delay once passengers have alighted, having first ensured that it is safe to do so.

(c) If the next scheduled departure of the bus from the allocated stand is within 5 minutes of its arrival, then it may take layover time on the stand if this is available but only with the prior permission of an authorised representative of Southern Vectis.

(d) If the bus arrives prior to the said 5 minutes at the allocated stand, the bus must proceed immediately
to the layover areas and not wait time at its allocated departure stand(s).

(e) If the allocated stand and set down stand are occupied, buses must set down at any vacant stand, allow passengers to alight safely and then proceed immediately to the layover areas.

(f) When the allocated stand becomes available, and the bus is the next scheduled departure, drivers should proceed to the allocated stand to allow passengers to board upon direction by a Southern Vectis representative.

(g) Double parking is NOT permitted. The blocking of any stand is not permitted. Drivers must not cause obstruction to the passage of other vehicles, or obstruct marked pedestrian routes.

4. THERE IS A MAXIMUM PERMITTED SPEED OF 5 MPH (8 KPH) IN THE BUS STATION.

5. Drivers must stop at the allocated departure stand whether signalled to do so or not by passengers.

6. Drivers must only allow passengers to alight their buses at the kerb at designated stands or set down stands.

7. Drivers must only allow passengers to board at the designated stands and not at the set down stand.

8. Under no circumstances should passengers be allowed to board or alight in the roadway or layover bays.

9. Drivers must commence loading passengers in time to allow for a prompt departure at the scheduled time.

10. The correct service number and destination must be displayed on the bus before approaching the departure stand and such display must be illuminated between the hours of sunset and sunrise.

11. Drivers must position their bus in such a manner that lifts, ramps and kneeling mechanisms can be safely deployed, the latter kneeling mechanism should always be deployed whilst parked at a stand.

12. All drivers must proceed with the utmost caution whilst in, arriving in and leaving from the bus station bearing in
mind particularly the safety of pedestrian, passenger and other users of the bus station.

13. When the bus is stationary, drivers must switch off engines at all times when the bus is parked anywhere within the bus station.

14. Priority must be given to reversing buses on drive on / reverse off stands. Reversing vehicles must use reversing lights and, if fitted, warning aids. Where these are not fitted, the driver must sound their horn to indicate their intention to reverse and should only do so once the driver is certain that there is no issue of safety, whether to vehicles or to passengers or other users of the bus station.

15. Instructions given by banksmen or authorised personnel must be followed at all times.

16. Buses on lay-over must park within the designated layover areas and shall not exceed 15 minutes in this area except with prior agreement from an authorised representative of Southern Vectis. If all layover bays are full, the next bus must leave that bus station, and then return for the scheduled departure time.

17. Vehicle change-overs:

a. on terminating services (i.e no passengers on board) must be made in the layover area: or

b. on through services (i.e passengers on board) may be made on the allocated stand but should be accomplished promptly,

in each case, so as not to delay or obstruct other vehicles requiring scheduled access to the stand or layover area.

18. Buses must not be left on a stand unattended at any time. (Where a driver change-over is effected on the stand, the driver coming off duty must not leave the vehicle until a relief driver arrives).

19. Bus operator employees shall not cross the roadways except by the designated walkways crossings and safe routes including access/egress to the lay-over areas. All
bus operator staff must wear a high visibility vest/jacket when walking in any bus manoeuvring areas.

20. No vehicle may be parked overnight in the bus station without the express consent of Southern Vectis.

21. Vehicles, other than buses, will only be permitted access to the bus station with the express consent of an authorised representative of Southern Vectis and, where permission is granted, these vehicles will be required to park in specified locations as notified to the driver of such vehicle.

22. Any unattended vehicle may be removed by Southern Vectis at the owner’s risk, where such a vehicle is, in the opinion of the bus station manager, causing obstruction so as to prevent the safe operation of the bus station.

23. All accidents, no matter how minor, must be reported to the local supervisor for Southern Vectis as soon as possible, and in any case within 24 hours of the accident. Operators will be held responsible for damage to the bus station caused by their vehicles, employees or agents. Damage to the bus station may include but not be limited to instances of oil spillage. The operator will be required to pay Southern Vectis in full the cost of rectifying damage (including but not limited to any oil spillage) within 14 days of being notified of the cost of rectification.

24. Operators and their employees must not do or permit anything to be done in or near to the bus station which may (i) be or become a nuisance or annoyance, or (ii) cause danger to other operators, members of the public, tenants, or occupiers of neighbouring properties (such instances including excessive engine idling, sweeping off of vehicles, staff conduct etc).

25. Operators using, or wishing to use the bus station must seek Southern Vectis consent if they wish to alter any timings of existing services or introduce new services using the bus station. To the extent permitted in law, and following consultation with the relevant bus operator in accordance with the Access to Bus Stations Order, Southern Vectis may refuse to grant consent. Such refusal may include but not be limited to suggestions that buses on the proposed timings cannot reasonably be accommodated on an appropriate stand. Operators are
advised to first agree access arrangements / times with Southern Vectis before applying for new or varied service registrations affecting use of the bus station

26. Departures from stands must be separated by at least a 3 minute headway.

27. Operators are required to observe their scheduled arrival and departure times and, in the instance where a stand may be shared with another operator, mutually to respect each other’s timetable requirements. Scheduled arrival and departure times will be those registered with the Traffic Commissioner.

28. Operators wishing to operate duplicate buses must apply to the Operations Director at Southern Vectis or the local operations manager based at the bus station prior to operation.

29. Any operator wishing to complain of malpractice of any other operator within a bus station operated at Southern Vectis should report such matters to the Southern Vectis Operations Director in writing or by email.

30. Although Southern Vectis will make every effort to ensure continuous availability of stand allocated to individual operators, in the instance of short term disruption (e.g. vehicle breakdowns, adverse weather, external traffic conditions), or long term disruption (e.g. carriageway maintenance, redevelopment), operators may be asked to use alternative stands in exceptional or unforeseen circumstances requiring temporary amendment to these terms and conditions of use. Southern Vectis will ensure that appropriate information notices are displayed advising passengers of any such arrangements. Other than in respect of ensuring that appropriate information notices are displayed, Southern Vectis accept no responsibility to the bus operators as a result of such arrangements.

31. No bus or other vehicle other, than those authorised by Southern Vectis, may enter the bus station for any reason other than in emergency situations.

32. No mechanical repairs may be effected inside or immediately next to the bus station except where a bus cannot be moved out of the bus station without first effecting such repair (e.g. non start or safety critical item)
and, in such cases, the vehicle will be removed as soon as possible and away from the stands into the layover bay to complete the safety critical repair. High visibility garments must be worn by all staff at all times and who are working on or around these vehicles.

33. Drivers must act on any instruction given by an appropriate authorised representative of Southern Vectis (including those from a banksman or the bus station manager). Failure to do so will result in a report to the bus operator management and such instances may be considered as non-compliance and therefore access to the bus station for that driver and / or bus operator may be withdrawn with immediate effect.

34. Operators are permitted to display timetable and other information in the display cases relating to the stand(s) allocated. If an operator is the only user of a stand, that operator may use all of the space available in the display case. If the stand is shared, then the space available will be divided equally between the operators using it. Operators are responsible for providing their own material, which will be fixed by Southern Vectis. No offensive material may be displayed.

35. Operating hours of Newport are 0415 until 0115 Monday to Friday and Sunday 0520 until 0115. On Saturday and Sunday mornings we have services operating from 0115 until 0430.

36. The maximum capacity of each stand is one departure every 7 minutes. There are four layover bays available.

37. Allocation of stands and layover areas is based primarily on ensuring high standards of safety, convenience of passengers, the current allocation of bus stands to existing operators (including Southern Vectis) and the layout of the bus station, including access routes into and out of the bus station. Services will be allocated to stands where sufficient capacity exists without adversely affecting punctuality. As far as is practicable, services will be allocated such that the frequency of departures from each stand is broadly similar, so that some stands are not ‘overloaded’ with several services.

38. The charge per departure is £0.85. Southern Vectis will issue an invoice. If the operator fails to pay in full the
charges within 30 days from the date of receipt of the invoice, that operator will no longer be permitted to use the bus station.

Basis of calculation – departure charges been calculated in accordance with the guidelines detailed in Competition Commission’s ‘Annex to Explanatory Note’. The five step methodology has been applied with relevant depot operating costs (for the year ended 30 June) adjusted for utilisation.

Reference Peak Period - for each location this has been calculated with reference to the period of the day with the most overall departures. In line with the example shown in the Competition Commission’s ‘Annex to Explanatory Note’ a three hour period on a weekday has been used for each location. The time of this three hour period varies from location to location. For most locations it is period during the morning whilst at Salisbury it is 1500-1800.

Annual review – charges will be subject to annual review on 31 October.

39. Southern Vectis disclaims any responsibility for the conduct and performance of bus operators (and their drivers) in respect of their obligations under these terms and conditions, for whatever reason and howsoever caused. Notwithstanding the foregoing, bus operators will be responsible for their buses and vehicles (whether owned, leased or used by the bus operators) and the drivers of such buses and vehicles at all times and shall be responsible for any loss, damage, cost, liability, claim, demand or other liability which Southern Vectis may suffer or incur as a result of a breach of these terms and conditions by such bus and / or bus driver.

40. In the case of problems or disagreements, an operator should contact Southern Vectis’s Operations Director in writing in the first instance. The address for sending such problem or disagreement is, if by post or by hand, Southern Vectis Bus Company Limited, Towngate House, 2/8 Parkstone Road, Poole, Dorset or, if by email, ed.wills@gosouthcoast.co.uk

41. If, such problem or disagreement is not resolved within ten days following receipt by the Operations Director at Southern Vectis of such problem or disagreement, then
the operator may write to the managing director of Southern Vectis. The letter should state that the operator wishes to initiate the dispute resolution procedure under these terms and conditions.

42. Any dispute regarding these terms and conditions of use must be initiated within eight weeks of the terms and conditions of use coming into effect (or if applicable any amendment to the terms and conditions of use coming into effect), or first applying to the operator, invoking the dispute resolution procedure, whichever is later (unless the bus operator reasonably believes that the dispute arises out of a material change in circumstances necessitating a review of the terms and conditions of use).

43. On receiving the dispute letter, Southern Vectis will identify and appoint an independent expert to adjudicate on the dispute (such expert having the relevant experience and skill-set to address the dispute in question). The cost of the independent expert will be borne equally between Southern Vectis and the operator unless the independent expert otherwise requires. If a group of operators initiate a dispute, the cost will be borne equally between Southern Vectis and that group of operators.

44. The dispute will be resolved within 50 days of the date the dispute is referred to the independent expert. The independent expert’s decision will be final and binding.

45. In the event of a dispute, Southern Vectis will continue to provide access to the bus station, and the operator will continue to pay all applicable charges and comply with the terms and conditions set out herein.

46. These terms and conditions of use are governed by English law and each bus operator agrees to submit to the jurisdiction of the English courts as regards any claim, dispute or matter arising out of or relating to these terms and conditions.
